PREVIOUS WORK EXPERIENCE

Cybersecurity Intern, Aristotle Capital Management June - Aug 2024

- Led a comprehensive introduction of Exabeam SIEM to the IT department, providing a detailed walkthrough of its features and emphasizing its significance for the firm's cybersecurity strategy
- Collaborated with the CTO, CFO, and cybersecurity team on strategic initiatives, including a visit to the US Secret Service's office to discuss joining the USSS Cyber Fraud Task Force
- Developed and delivered key resources for Aristotle's generative AI pilots, including administrator documentation, a tutorial video, and a one-pager on Microsoft Copilot usage best practices.

Facilities Student Worker, USC Libraries Nov 2021 - present

- Field 20-30 tickets regarding campus maintenance weekly, delegated responsibilities to 10 departments
- Engage with clients across all sectors of Libraries department to facilitate logistics
- Constructed system to manage 100+ monthly vehicle reservations, via JavaScript-based program converting Google Form responses to Google Calendar events; *still in use today* (launched Aug 2022)
